KH9/KK4WZI Wake Island by Stacy KK4WZI

"It is looking like I will be heading to Wake Island in a few weeks for work. There is NO exact date set yet. I am looking for pointers to help me get ready. I should have 3-4 days of downtime around work. At this time, it looks like this will be an every 6-month working trip. For starters, my callsign do I need to change or modify? I am planning on taking a Yaesu FT-891 matched up with a Yaesu ATAS-25 MICRO Portable Antenna and possibly a homebrew 40-10 meter vertical. At this time, my plan is to only work FT-4 & FT-8 (my CW skills are beyond weak) and I am not sure about having enough "power" to be doing a lot of SSB, so at this time I am only planning for low power ops. Any suggestion would be helpful."

OA7/DD5ZZ Peru –update by Alex DD5ZZ

I finally have my license in hand. It was hard work and an adventure in itself. Peru did NOT implement CEPT TR61-01 so you can NOT just go there with your CEPT license and bring your equipment. Even if all the CEPT lists tell us otherwise. You NEED a temporary operating permit (unless you are a citizen of a Citel country). I wish i knew that earlier.. But i got some great help from the ham community, especially by Daniel OA9DVK and Hans OE3NHW (OA6Q). Without them and the help of my wonderful YL it would have been absolutely impossible to get the operating permit.

I will be operating from Cusco city, not far from the famous ruins of Machu Picchu. The Elevation is around 3300m / 11.000ft and even if the city is located in a valley surrounded by mountains up to 5000m in elevation, the takeoff angles in all major directions are not too bad.

VK5AVB Kangaroo Island OC-139 by Tony VK5AVB

'I am the only current operator on Kangaroo Island and just set up my station a few days ago. There has been no permanent operators here for at least 20 years and the DX is amazing with very little QRM. I can work from the East to the West and love my DX as I'm on a hill with a 16m tower and plenty of ocean around me.'

THE REMINDERS

Russian District Award August 21-22

<http://rdaward.org/indexeng.htm>

Our diploma program has been around for 20 years, and its main goal is to get cfm for QSO with all districts of Russia.

We have developed an automatic RDA district cfm specifically for fulfilling the requirements of the diploma program:

<https://mydx.eu>

This service makes the participation as easy as possible. You do not need to create an application and send it to the Diploma Manager – all you need to do is to send in your payment and your post address. You can get either one or several diplomas – it is up to you. For your convenience we have created special version of RDA dx-cluster where you can easily see those RDA-s that you don't have confirmed yet.

You also have a possibility to have a sound notification when your unconfirmed RDA is spotted. Go and check it out:
